Program	Description
<p>Play & Learn Drop In</p>	<p>This program follows YMCA Playing to Learn curriculum where enjoyable and spontaneous play occurs in supportive, caring environments with responsive and competent educators. Children direct their own learning and have input in what they would like to learn. Children will have the opportunity to interact with a variety of materials and will get to choose their play experiences. Playing to learn allows children to develop the foundations for language and literacy, mathematics, science and the arts.</p>
<p>Cook, Eat & Mingle (Must register by: <i>Noon the day before the program</i>)</p>	<p>This 2-hour class will give both parents and their children the opportunity to get messy in the kitchen. Participants will be able to learn new skills in the kitchen and bond through sitting down and eating the food that they made together.</p>
<p>Urban Park</p>	<p>Follow us as we set up downtown Timmins for Urban Park. Each week, there will be an activity based on the themes provided.</p>
<p>Sensory & Messy Play</p>	<p>In this class, children will explore their senses by participating in a variety of activities to enhance their learning. Sensory play stimulates the child's senses through hands on activities that allow them to explore and discover the world that they live in. Children will participate and experience a variety of sensory activities in this class.</p>
<p>Outdoor Story Time</p>	<p>Come join us as we read books, sing songs and learn finger plays! Children can wear their pajamas so they are ready to be tucked into bed when they get home.</p>
<p>Garden Time</p>	<p>Families will have the opportunity to tend to our garden boxes in our play space. We will learn how to care for plants, weed the garden and harvest what is grown in it.</p>
<p>Outdoor Play</p>	<p>Research suggests that an early start in physical literacy enhances development of brain function, physical coordination, gross motor skills, posture and balance. Children and adults will have the opportunity to develop a range of body control, locomotor and sending and receiving object skills in this active outdoor class.</p>
<p>Dad & Me</p>	<p>This program offers a welcoming group setting where Dads and their child can have fun together while learning through play. Dads and children will participate in a variety of activities that are age appropriate for stage of development and interest.</p>
<p>MobYle</p>	<p>Join us as we explore outdoor play with our MobYle team. Our MobYle team promotes fun and interactive physical activity by planning safe and structured activities for children to participate in at local parks around the city.</p>
<p>Family Game Night</p>	<p>Come play some fun interactive games with us!</p>
